Mental Health First Aid is the help provided to a person developing a mental health problem or experiencing a mental health crisis. Just as physical first aid is administered to an injured person before medical treatment can be obtained, MHFA is given until appropriate treatment is found or until the crisis is resolved.

## Once the workshop is completed you will be able to:

- Assess the risk of suicide and/or harm
- Listen non-judgementally
- Give reassurance and information
- > Encourage the young person to get appropriate professional help
