3675 Concession Road 7, Orono, Room 104

Thursday, April 30, 2020 &

9:30 am to 3:30 pm

You will learn how to:

- **Recognize the signs & symptoms of mental health problems**
- **Provide initial help**
- **Guide a person towards appropriate professional help**

Mental Health First Aid is the help provided to a person developing a mental health problem or experiencing a mental health crisis. Just as physical first aid is administered to an injured person before medical treatment can be obtained, MHFA is given until appropriate treatment is found or until the crisis is resolved.

Once the workshop is completed you will be able to:

- **Assess the risk of suicide and/or harm**
- **Listen non-judgementally**
- **Give reassurance and information**
- **Encourage the young person to get appropriate professional help**
- **Encourage other supports**

Did you know that half of all mental disorders begin by the age 14-24? And 1 person in 3 will experience a mental health problem at some point of their lifetime.
